REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the most closely related prior art of record is considered to be Correll et al., US Patent 5,094,026. The instant invention claims an elongated head member having a longitudinal bore hole passing through the head member from the front to the end with diametrically opposed recess in an outer surface of the head aligned with radial bore holes to communicate with the longitudinal bore hole. This feature is not shown nor considered to be an obvious modification of the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
